

# Aqua deRust Solution

## Neutral De-Rusting Solution

### DESCRIPTION

Aqua deRust Solution is biodegradable, water soluble and ready-to-use rust removing solution. It is design for use on carbon steel, mild steel, ferrous and non ferrous metals.

### SUITABLE USES

Rust removal or cleaning solution for ferrous and non-ferrous metals.

### ADVANTAGES

- Biodegradable & Neutral
- Economical
- No burning or irritation with skin contact

### PHYSICAL PROPERTY

|                           |                  |
|---------------------------|------------------|
| Appearance                | Clear Solution   |
| Boiling Point             | 100 °C           |
| Packaging sizes           | 25 litres        |
| Physical state at 20°C    | Liquid           |
| pH value                  | 6                |
| pH 1% conc. in water      | No change        |
| Odour                     | None             |
| Relative density at 20 °C | 1.0000           |
| Solubility                | Soluble in water |
| Vapour pressure at 20 °C  | Pa 2332          |
| Viscosity at 20 °C        | mPa.s 1          |

### PACK SIZE

25 litres

### SHELF LIFE

36 months

### HOW TO APPLY

|                           |  |
|---------------------------|--|
| Application               | By Immersion   |
| Rust condition            | Immersion period   |
| •Light & Mild             | ≥ 30 minutes   |
| •Heavy                    | ≥ 12 to 24 hours   |
| After immersion treatment | Rinse thoroughly with clean water.                                     |
| Rust prevention           | After derusting, dip steel into Aqua deRust Solution allow to air dry. |

### LIMITATION

Immersion period given above are for reference only. Trial should be carried out on none critical sample piece before using it on actual material

### STORAGE & TRANSPORTION

Keep Aqua deRust Solution in cool and dry condition. Store in it original sealed condition.
